

rediscovering sheet music

Problem

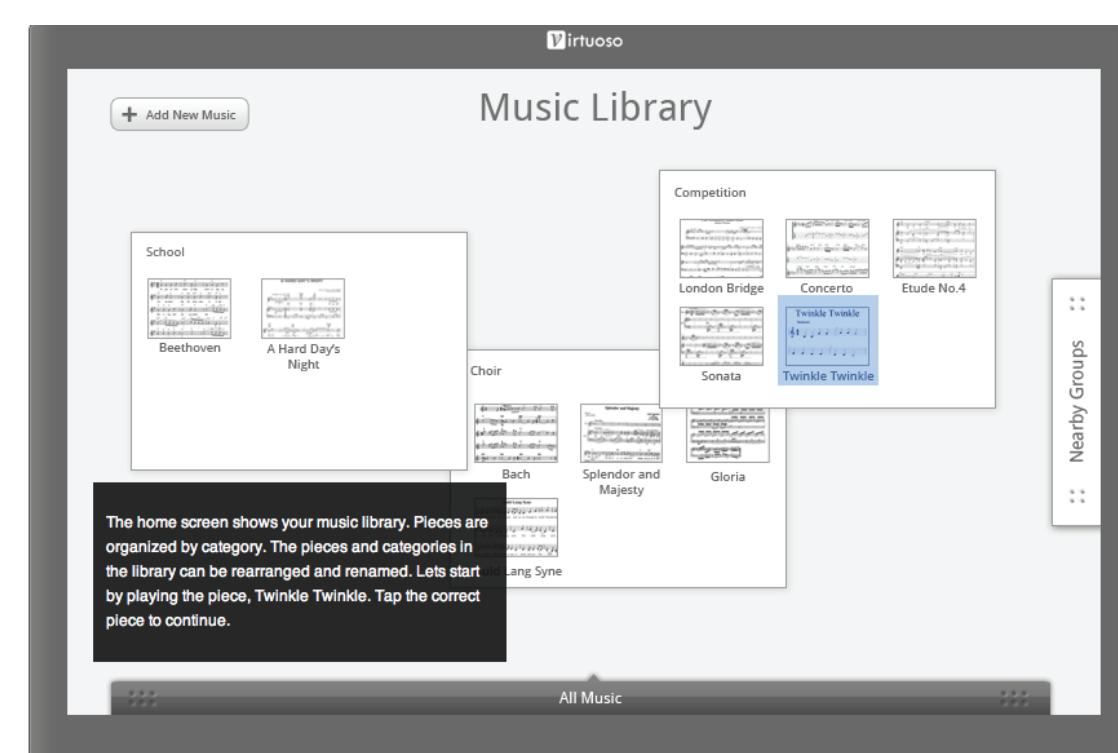

- Physical sheet music can be heavy and hard to transport.
- Sheet music can get unorganized easily.
- Current digital conversions do not support music practice.
- Current devices have one-page, small digital displays.

Solution

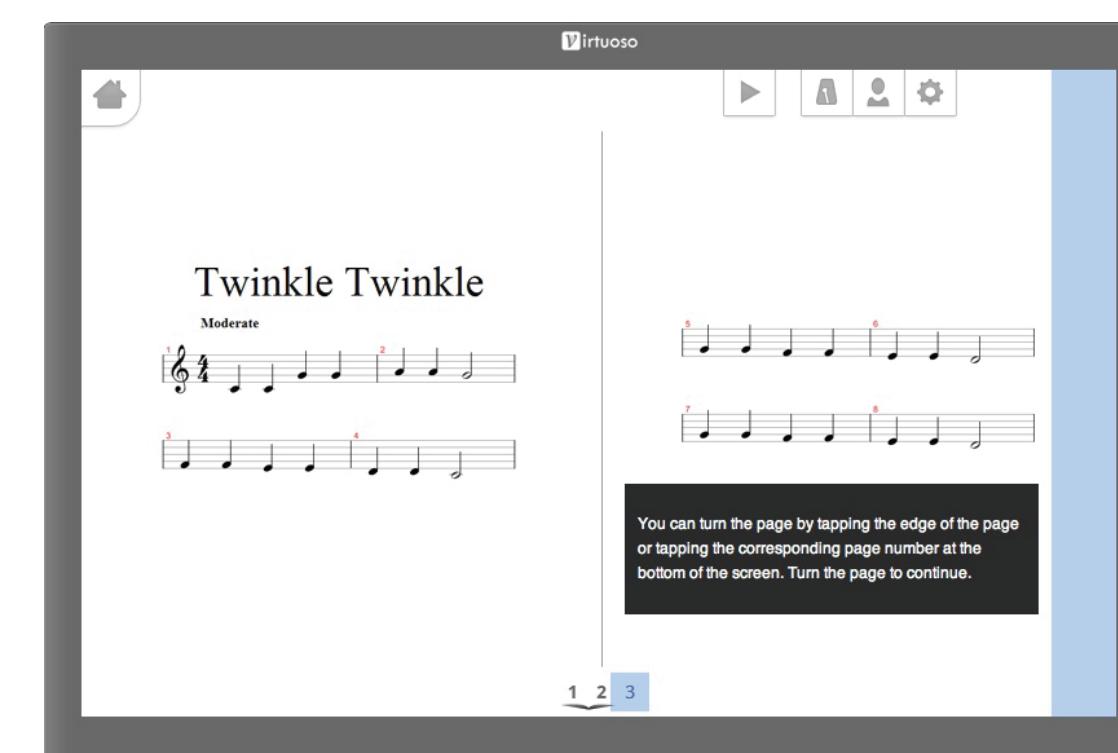

- A **revolutionary, portable, folding** digital device.
- Customized music categories in Music Library.
- Features that support **solo and group practice**.
- A **two-page** digital display.

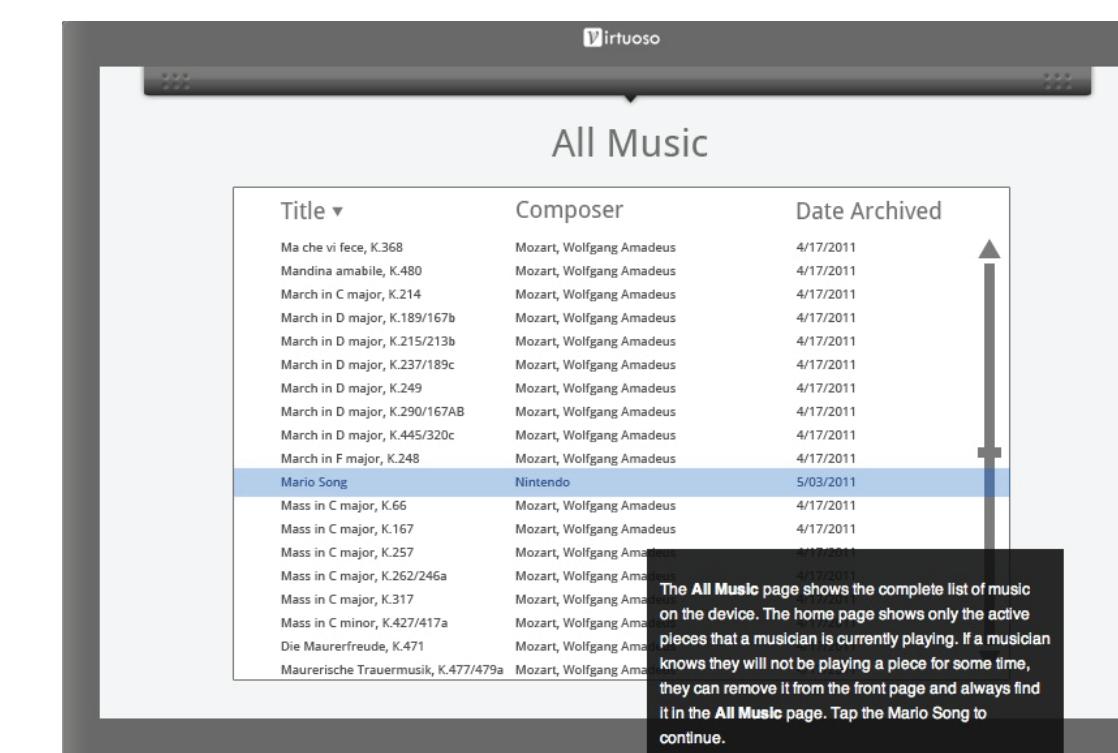

Demo

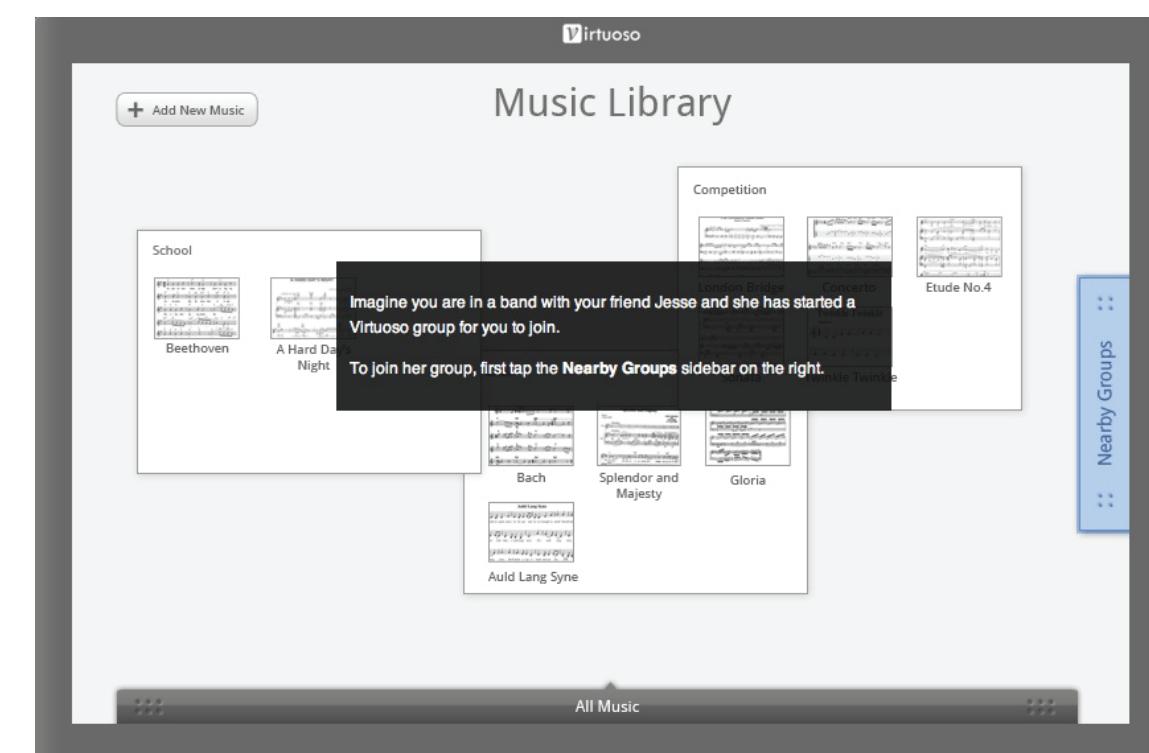

Music Library
Browse, add, and remove music pieces

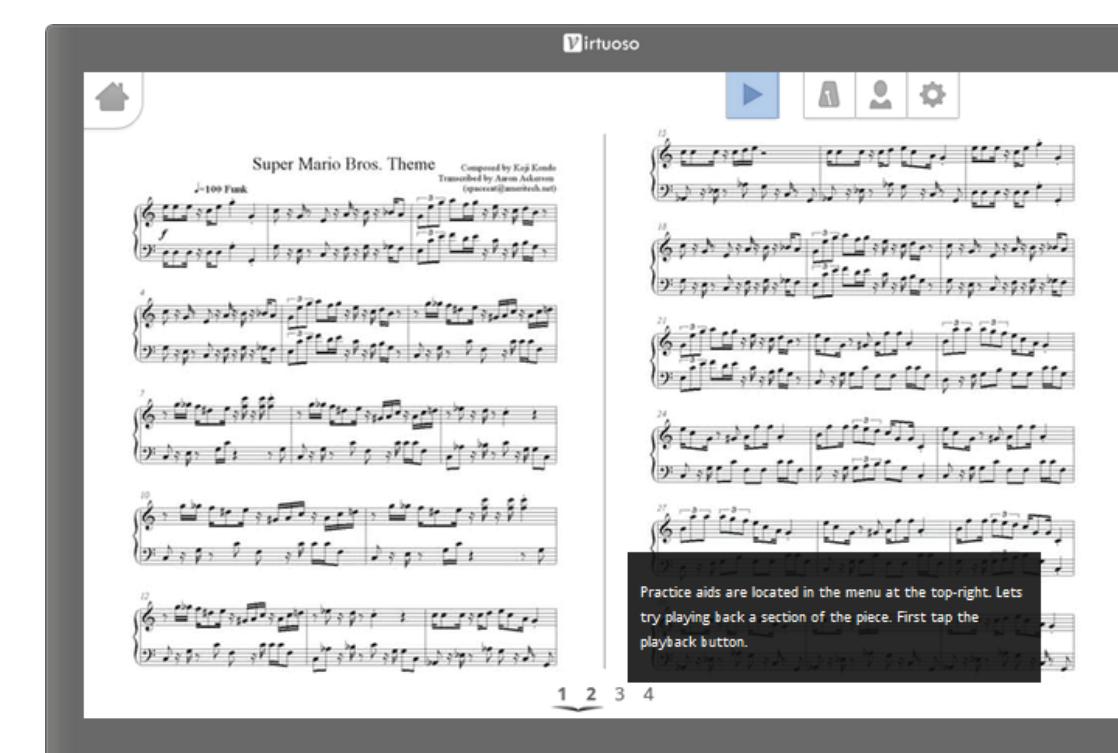

Music View
Tap the edge or page number to flip pages

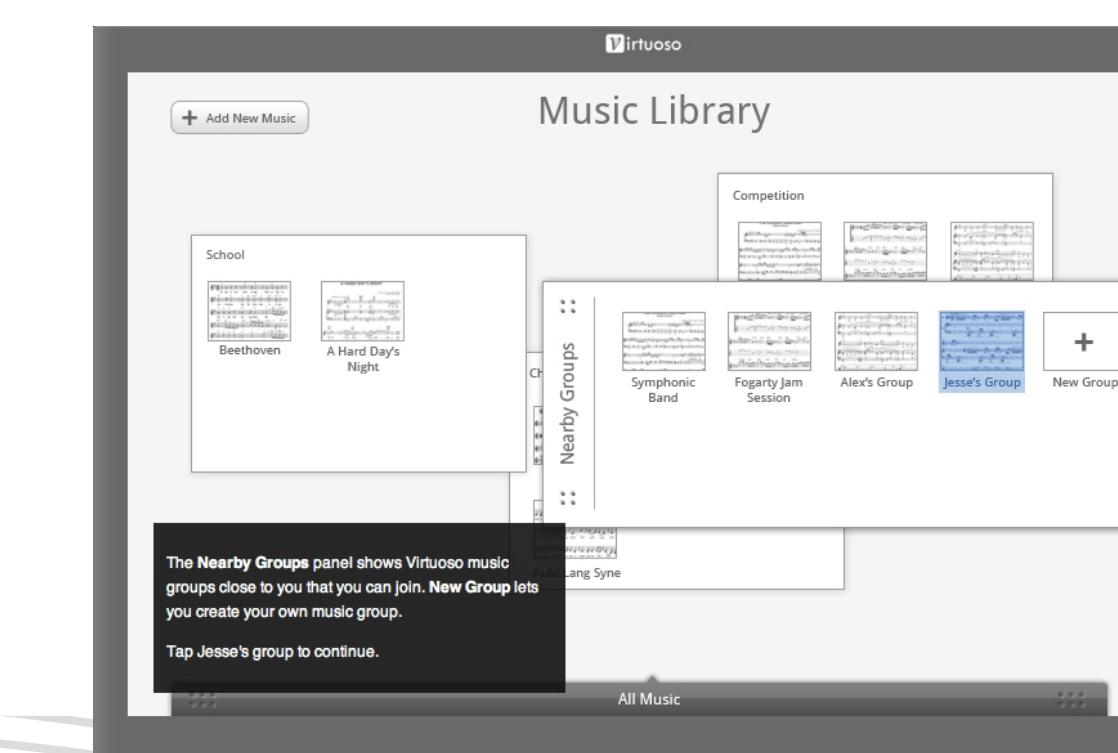

All Music
Store all music pieces

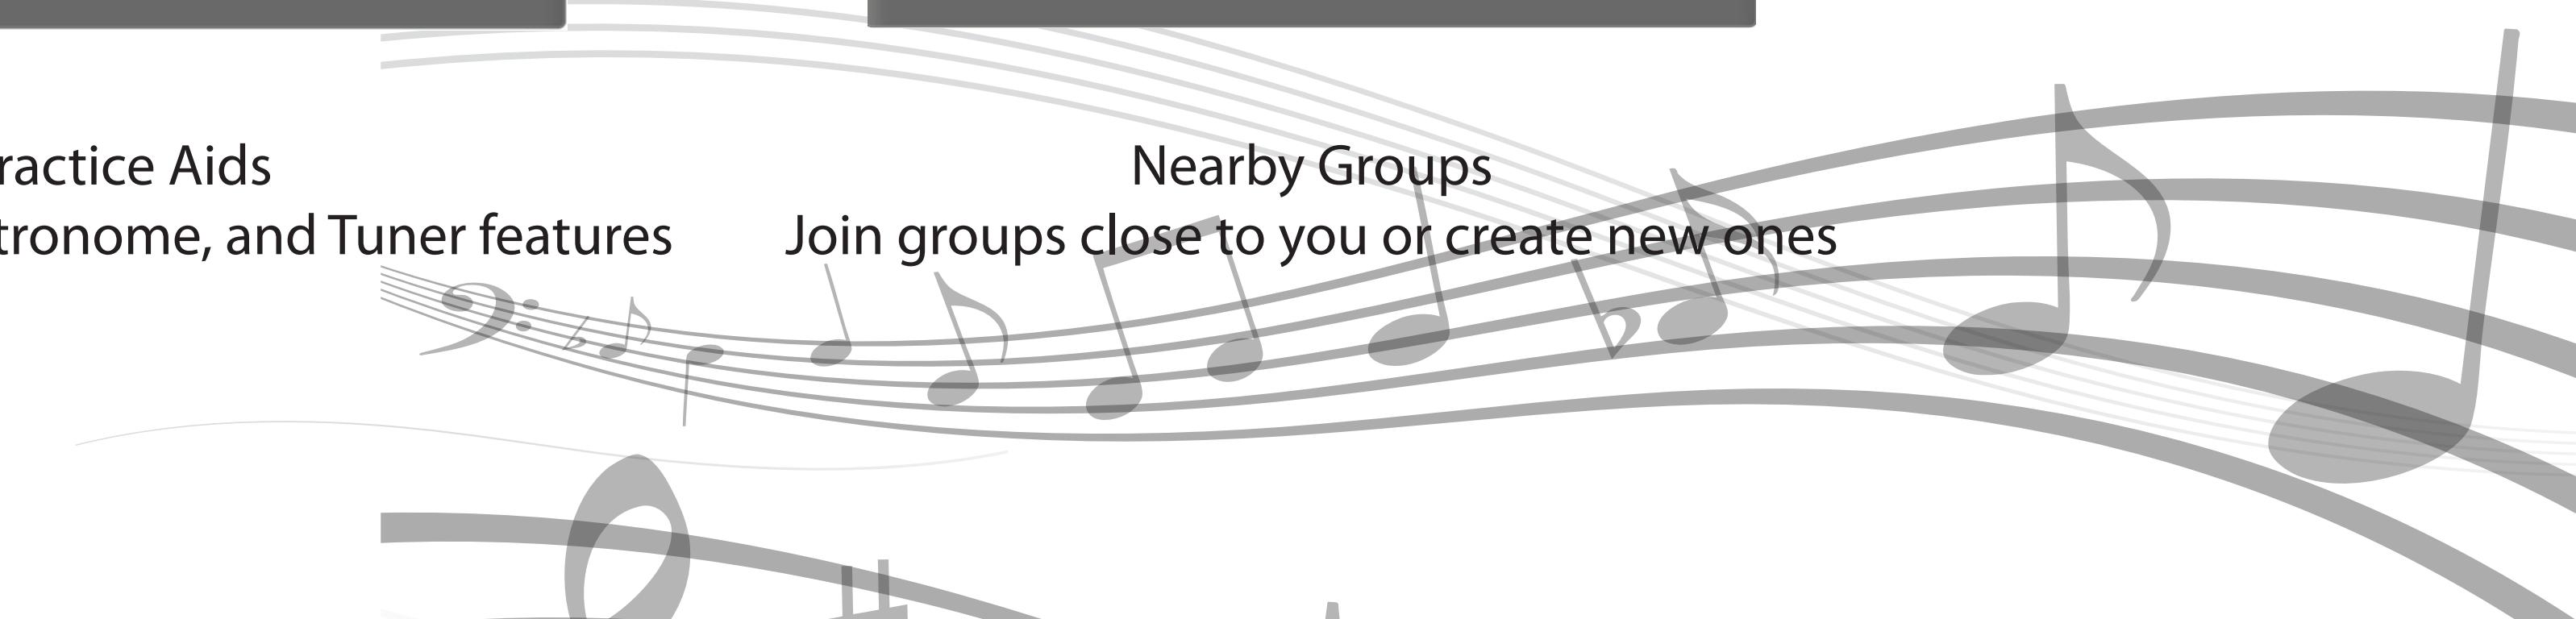

Group Collaboration
Try collaborative note-taking and playback

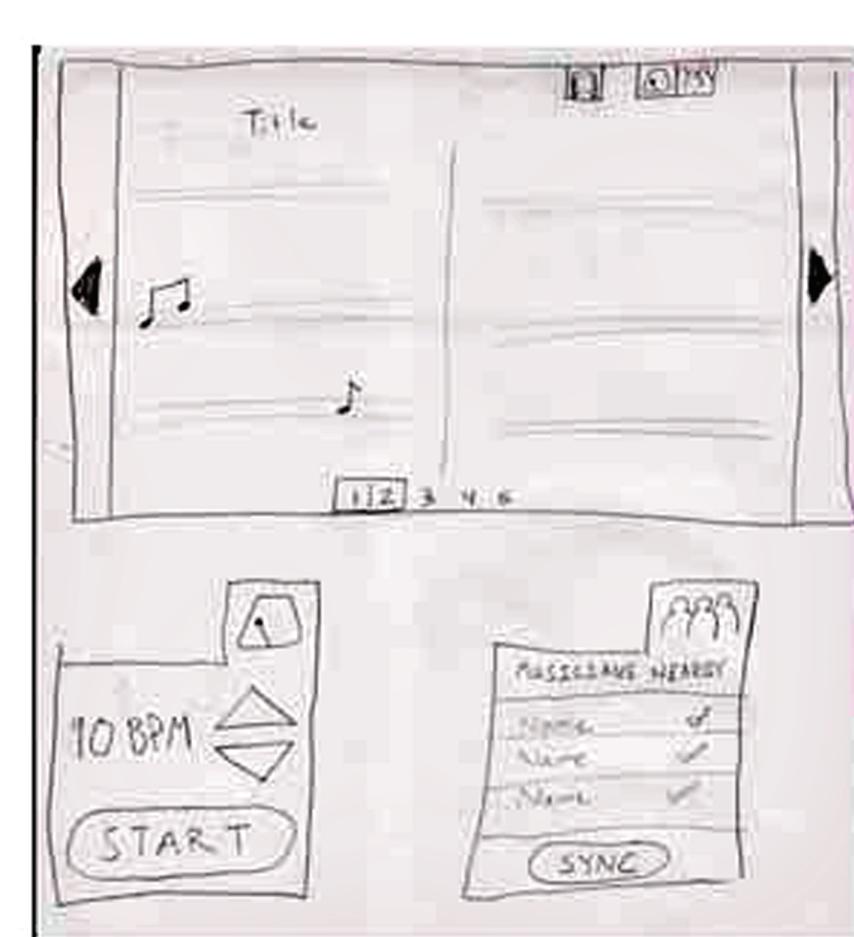

Practice Aids
Use Play Back, Metronome, and Tuner features

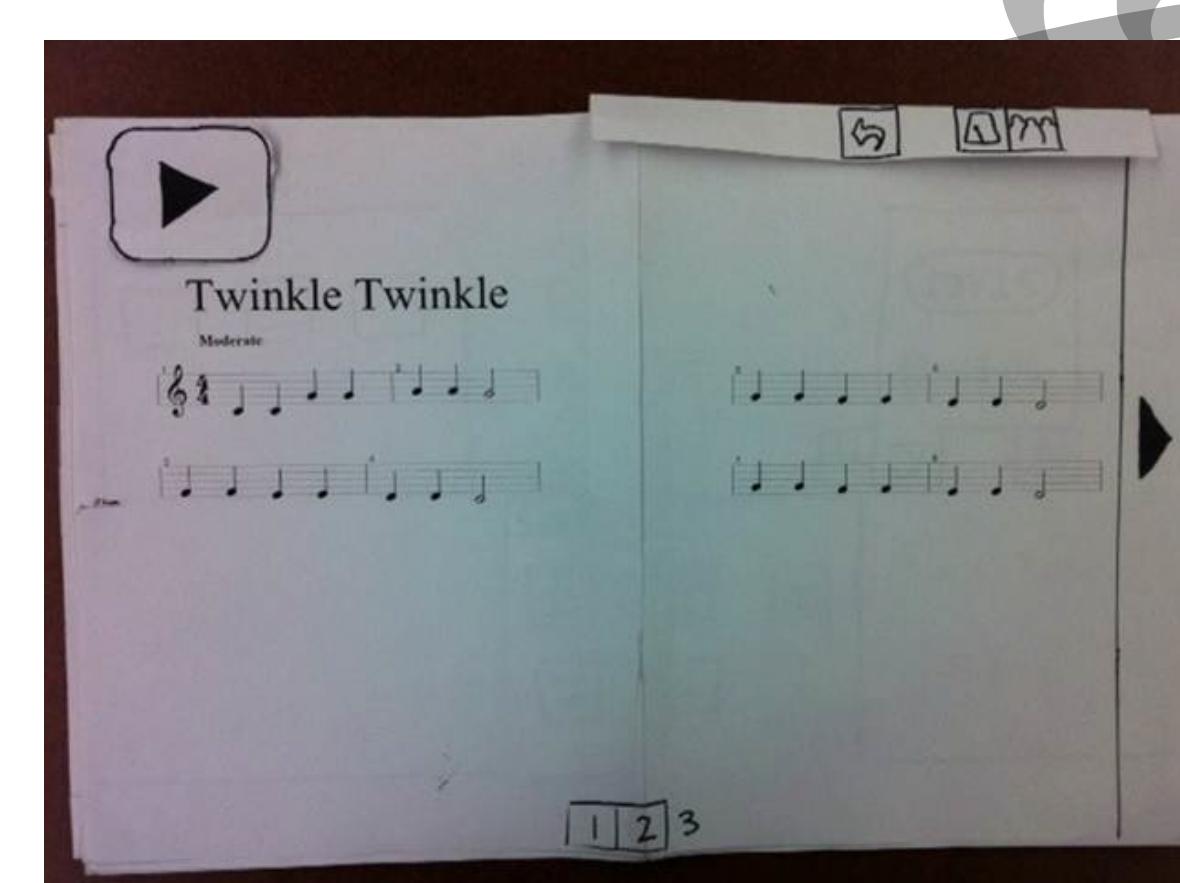

Nearby Groups
Join groups close to you or create new ones

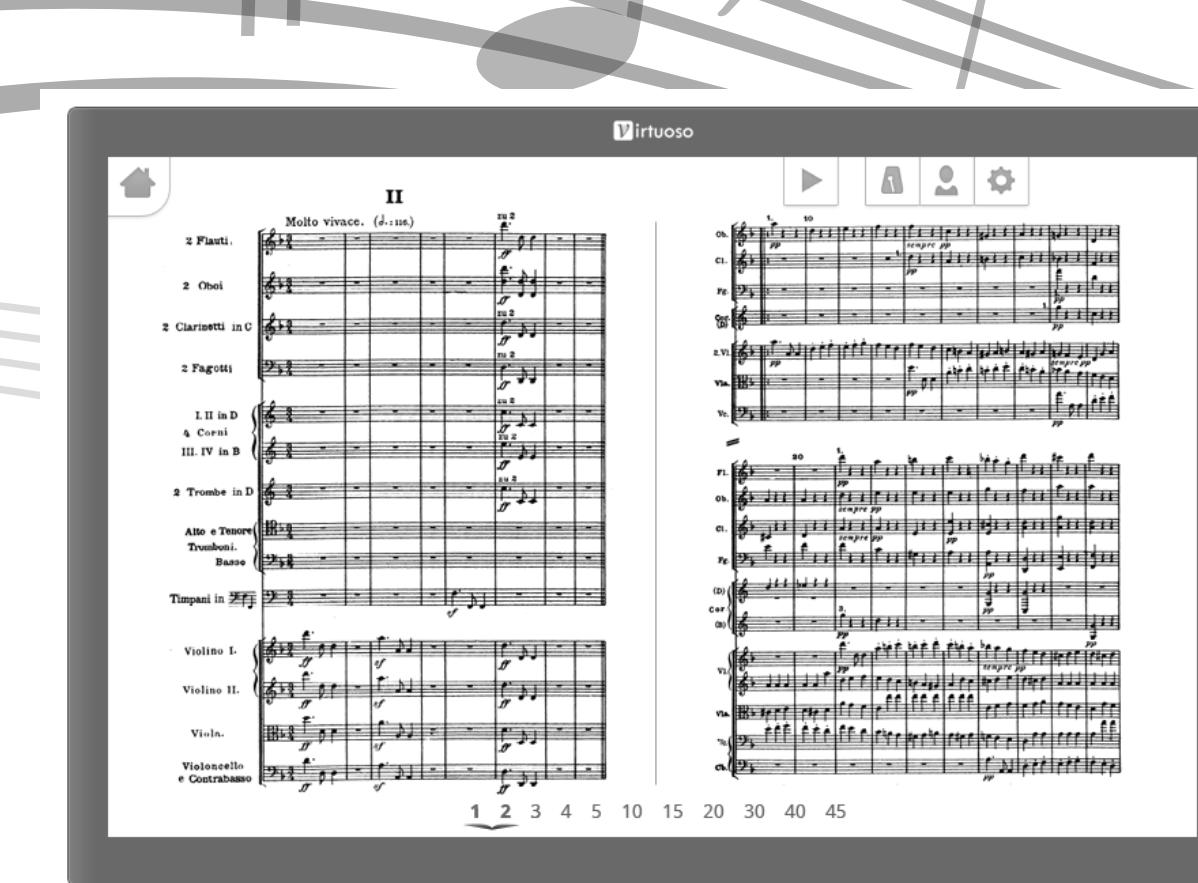

Design Process

1. Initial Sketch

2. Low-fidelity Prototype

3. High-fidelity Prototype
